

# LOKTA - MOMI & YANAGI

Our Collection of Momi Lokta papers are hand-crinkled, hand-dyed and are available in six vibrant colors. Their texture is like a bird's-eye view of a mountain landscape. The paper becomes stronger in the hand-crinkling process. This strength and flexibility make the paper suitable for bookmaking and a wide range of creative projects.

Yanagi Lokta is also crinkled, and then resist-dyed using vegetable dyes. The dyed pattern and texture is the same on both sides.

Both the Momi and Yanagi papers have a slightly smaller sheet size and are thicker, because the fibers are packed together more densely when crinkled. Our Lokta papers are handmade in Nepal and subject to slight variation in color and thickness.
